

Saskatchewan Science Centre's Litterless Lunch Program

Here is a fun way to help your students learn about composting and recycling!

You'll find our re-cycling bins located around the Science Centre display information about this important subject. To enhance your students learning experience check out our Litterless Lunch Scavenger Hunt under our Teacher's Resources Page by visiting www.sasksciencecentre.com.

As part of this project, we are also keeping a record of the total amount of material that is saved from going to the Regina landfill! A grand total will be calculated at the end of each school year.

To help the environment, we would like your class to participate in the Litterless Lunch Project during your next Science Centre visit.

To enroll in the program, contact Lori at 791-7943 or by email, lwilliams@sasksciencecentre.com
