

# THRILLS AND CHILLS

## Scavenger Hunt

Read the creepy clues and find where they are located in the Science Centre to get the answers.

- 1 The \_\_\_\_\_ jaws are ready to swallow you whole. Step inside to seek smaller things.
- 2 This commonly feared critter eats its liquefied victim by slurping it up. \_\_\_\_\_
- 3 Beware the creature of the night. You may see one of these flying on Halloween night. Which species is native to Saskatchewan? \_\_\_\_\_
- 4 This snake may crawl on the ground, but he is the king of his kind. \_\_\_\_\_
- 5 Alien encounters are right in our own backyard, or at least in the backyards of those living in this Saskatchewan town. Crop circles have been recorded in this town. \_\_\_\_\_
- 6 Did you see that UFO? The \_\_\_\_\_ principle is responsible. It provides lift for many flying objects, and maybe even a UFO.
- 7 Worms and maggots are crawling all around! Don't be too grossed out there are over 4,400 species of these in the world. \_\_\_\_\_

- 8 Say hello to the Maskwa before he... says hello to you! Grizzly Bears were extirpated in Saskatchewan in the 1930's but can still be found in \_\_\_\_\_.
- 9 Find our image hidden in the magic mirror. Hint: Use the reflective cylinder.  
\_\_\_\_\_
- 10 Alexis St. Martin provided doctors with a window into his \_\_\_\_\_. After his hunting accident his wound never healed completely.
- 11 Dig deep to solve the mystery of the missing cadavers. Why were dead bodies stolen in the 1800s?  
\_\_\_\_\_
- 12 Phineas Gage was left a changed man after a \_\_\_\_\_ was sent through his head during a railroad accident.
- 13 Name the Science Explorer with a pumpkin pin.  
\_\_\_\_\_

Need help finding the answers?  
Ask a Science Explorer or pick up an answer sheet at the front desk.

Have a  
creep-tastic  
day here at  
the Science  
Centre!
