

# Create a Creature!

**What is your creature name?**

**What kind of animal is it?**

Does it live in water? On land?

**What kind of animal might try to eat your creature?**

Who are its predators?

**What does your creature eat?**

What is its prey?

**Where does your creature live?**

**What makes this habitat challenging place to survive in?**

**Does your creature have any special skills or abilities (adaptations) that help it survive in this habitat?**

**How does your creature get along with other organisms?**

**What else is special about your creature?**

- difference between young, old, male, female
- whether it is **diurnal** (*awake during the day*) or **nocturnal** (*awake at night*)
- how it moves, what sounds it makes
